Notes

* AQI is not calculated for today's bulletin for Agra, Gaya, Jaipur, Muzaffarpur, Panchkula, Rohtak, Gurgaon as data was not available.

Some stations have data available at 3 PM.

* In case of a city with multiple monitoring locations, average value is used to indicate air quality. Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpqb.nic.in>) may be referred.
