### Notes

\* AQI is not calculated for today's bulletin for Gaya, Gurgaon, Lucknow, Mumbai, Panchkula, Patna, Varanasi as data was not available.

# Some stations have data available at 3 PM.

\* In case of a city with multiple monitoring locations, average value is used to indicate air quality. Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpcb.nic.in>) may be referred.
