Notes

* AQI is not calculated for today's bulletin for Bengaluru, Chennai, Gurgaon, Jaipur, Lucknow, Nagpur, Nashik, Panchkula, Gaya, Haldia, Jodhpur, Mumbai, Rohtak as data was not available.

Some stations have data available at 3 PM.

* In case of a city with multiple monitoring locations, average value is used to indicate air quality. Air quality may show variations across locations, and averaging is not a scientifically sound approach. However, for the sake of simplicity this method is being followed. For AQI of monitoring locations, website (<http://cpcb.nic.in>) may be referred.
